

Profusions Health & Wellness

BPC-157 Therapy

BPC-157 (Body Protection Compound) is a peptide known for its remarkable healing and regenerative properties. It supports tissue repair, reduces inflammation, and promotes recovery from injuries.

■ Key Benefits

- Accelerates healing of muscles, tendons, and ligaments.
- Reduces inflammation and supports joint health.
- Enhances recovery from workouts, surgery, or injury.
- Promotes gut health and digestive balance.

■ How It Works

- Delivered via injection under physician guidance.
- Stimulates angiogenesis (formation of new blood vessels) for faster repair.
- Supports anti-inflammatory and regenerative pathways.

■ Who It's For

- Athletes or active individuals seeking faster recovery.
- Those with joint pain, tendon injuries, or inflammation.
- Patients recovering from surgery or musculoskeletal conditions.

■ The Profusions Difference

- Personalized dosing tailored to your needs.
- Clinical oversight with licensed providers.
- High-quality peptide sourcing for safety and efficacy.
